## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Allen et al. (5,979,658) as cited in Applicant's IDS. Allen et al. discloses a method for treatment comprising diagnosis and treatment with a kit, said kit including instructions and a log sheet, and returning the kit (col. 2, lines 39-49 and col. 4, lines 26-39). Please note that where the printed matter is not functionally related to the substrate (e.g. billing code), the printed matter will not distinguish the invention from the prior art in terms of patentability. In addition, the limitation wherein the medical packs integrate medical supplies and medications from different manufacturers is essentially a product by process limitation. Furthermore, any portion of the kit could be considered the "starter kit".
